ABOUT JUTE

Jute is a agro based natural fibre, it is spun into coarse thread. The thread created from jute is quite strong and further woven into fabric.

Jute fibre is 100% bio-degradable and recyclable and thus environment friendly. It is a natural fibre with golden and silky shine and hence it is called ***The Golden Fibre***.

It has high tensile strength, low extensibility and its fabric ensures better breathability. Therefore, Jute is very suitable in agricultural commodity bulk packaging.

It helps make the best quality industrial yarn, fabric, net, and sacks. It is one of the most versatile natural fibre that has been used in a reduced breaking tenacity and an increased breaking extensibility when blended as ternary blend.

However, Jute is totally free from odour. Jute includes insulating and acoustic properties and it touches have no skin irritation. For sustainable future and eco system, Jute will play a vital role.

ABOUT US

Āzm Enterprises is an Indian start-up export company. It is born with the vision to provide eco-friendly solutions to clients, consumers and for the ecological sustainability. It is initially engaged in trading, exporting and supplying a wide range of JUTE, JUCO & CANVAS made products.
